EXPERIENCED MANY UNFORGETTABLE MOMENTS
AND HAVE GROWN FOND OF IT?

AFTER OVERHAUL READY FOR A SECOND LIFE.

After intensive use of your STUDER cylindrical grinding machine, we offer you the option of restoring the original quality of your STUDER machine in the Fritz Studer AG facility with an assembly or complete machine overhaul.

Machine overhaul STUDER cylindrical grinding machines

Your advantages

- Geometry equivalent to original condition
- Extended service life of the machine
- No re-training of your personnel necessary
- Existing tooling can still be used

STUDER benefits

- Appraisal by STUDER specialists
- Short downtime thanks to STUDER loaner machines
- Exclusively STUDER original parts
- Reconfigurations possible
- Recommissioning with acceptance report
- Longstanding experience

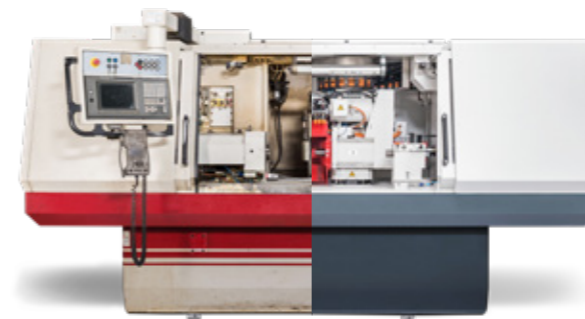

Assembly overhaul Workhead, wheelhead, tailstock

Your advantages

- STUDER loaner assemblies available
- Proven, long-established process
- You receive your original assembly returned as good as new
- Fast turnaround of assembly overhauls
- Cost-effective overhaul

STUDER benefits

- Short downtime thanks to STUDER loaner assemblies
- Warranty on scope of services that have been performed
- Original STUDER parts
- Longstanding experience

Do your machine a favour and continue grinding on your familiar STUDER machine in the future.

We are happy to answer your questions and are available for a free, non-binding on-site consultation.
